WORK EXPERIENCE

Heptatrack IOT & Innovatives PVT. LTD

(present)

IoT based company

- Owned the complete product and client lifecycle – from research and requirement gathering to execution, delivery, and performance tracking.
- Conducted extensive market and product research to identify growth opportunities, competitor positioning, and customer behavior patterns in the IoT and AgriTech sectors.
- Designed and maintained data pipelines to track business metrics, automate reports, and support data-driven decision-making.
- Developed a fully automated follow-up tracking system using Google Sheets and scripts, improving client communication efficiency and conversion timelines.
- Set up and optimized WhatsApp automation workflows for lead nurturing and customer engagement, resulting in better response rates and streamlined operations

Social thunder

Oct 2023- Nov 2024

Digital Marketing Agency

- Led end-to-end client management, including onboarding, communication, requirement gathering, and performance tracking for multiple educational clients.
- Conducted market and competitor research to identify positioning gaps, audience trends, and opportunities for brand growth within the education sector.
- Supervised a creative team consisting of a Social Media Manager and a Graphic Designer, ensuring alignment between marketing strategy, design, and content execution.
- Utilized AI-based WhatsApp automation for lead generation, client engagement, and campaign broadcasting, improving customer interaction efficiency.

- Implemented customer segmentation and targeting strategies to optimize marketing performance and audience engagement.
- Designed basic creatives and reports using Canva, integrating visual storytelling into campaign analysis and presentations.
- Maintained detailed performance reports and insights dashboards, tracking campaign KPIs, engagement metrics, and conversion data.
- Strengthened client relationships through regular follow-ups, progress updates, and solution-oriented communication.

EDUCATION

- KHALLIKOTE UNITARY UNIVERSITY, Berhampur (2024-2026)
MBA specialization In Finance management
- BERHAMPUR UNIVERSITY, Berhampur (2020-2023)
Bsc in Physics Hons

PROJECTS

Hotel booking analysis EDA project

[github.com/trupti-padhi/NETFLIX MOVIE RECOMMENDATION](https://github.com/trupti-padhi/NETFLIX_MOVIE_RECOMMENDATION)

Developed a movie recommendation system for Netflix using collaborative filtering and content-based algorithms. Employed Python, Pandas, NumPy, and Scikit-learn to analyze user preferences and recommend personalized content, enhancing user experience and engagement.

Self developed projects

Competitor analysis dashboard using excel

https://docs.google.com/document/d/1VuOwG8MPLT_vpLxpf6osaDGveit_eygYXjEvO57pOak/edit?usp=sharing

Created a competitor analysis dashboard using Excel. Analyzed key metrics such as market size, ad budget, content strategy, and sales revenue. Visualized data to provide strategic insights and competitive positioning, aiding in informed decision-making and business strategy development.

Social media optimization

https://github.com/trupti-padhi/social_optimization

Created a Social Media Optimization project using Python. Analyzed engagement metrics, content performance, and audience behavior across platforms. Developed actionable insights to improve social media strategies, optimize content schedules, and enhance overall online presence. Shared the project on GitHub to showcase technical expertise and practical application of data analysis in digital marketing.
